

# Uniting to trade and reduce Poverty in church before year 2030 crisis begins (the coming total lock down of the beast kingdom)

Two (2) reasons why we must unite and trade as one block to create wealth

## Reason No.1

- To shift business from usual to unusual

The current business system in Kenya is structured to accumulate wealth for the same who have much wealth at the expense of millions poor, that is why the makers of vision 2030 stated, on reducing the gap between the rich and the poor there is need we shift business from usual to unusual

The current business system is structured under a 90/10 business system which is the business as usual, what this means is that only less than 5% of Kenya population control 90% all wealth at the expense of the majority 90% who make the most of the population who have been reduced to share the remaining 10%

## What do we mean?

### Business as usual system the 90/10 system

Has Programmed .01% of Kenya's population to own 2/3<sup>rd</sup> of Kenya's wealth, While 99.9% of Kenyans population has been reduced to share 1/3<sup>rd</sup> off Kenya's recourses

## The way out of poverty

## Building on Kenya Vision 2030: Economic Pillar strategy

Which says:

7. EQUITY AND POVERTY ELIMINATION The 2030 goal for Equity and poverty elimination is to reduce the number of people living in poverty to a tiny proportion of the total population

Kenya will aim at a society that guarantees equality of opportunity in accessing public services and providing income generating activities as widely as possible.

To deliver on this ambitious process of national transformation will require a fundamental shift from business as usual to business unusual (from multiple and often uncoordinated levels of decision making to centralized implementation process); a new management philosophy

## Reference

### Oxfam

The report titled: "Spatial Dimension of Well-being in Kenya: Where are the Poor?" indicates that nearly half of the Kenyan population (45.2 percent) are living in poverty

45.2% of 44 million

= 19,888,000 live below poverty line

Extreme poverty, defined as monthly household expenditure below 1,954 shillings in rural areas and 2,551 shillings in urban areas, fell from 19.6 percent in 2005/6 to 8.6 percent in 2015/16.

### Kenya: extreme inequality in numbers

<https://www.oxfam.org/en/even-it/kenya-extreme-inequality-numbers>

Extreme inequality is out of control in Kenya. Despite an impressive economic growth since 2005, poverty still affects millions of people's lives.

It appears that a minority of wealthy individuals and investors are creaming off the yields of the country's economic performance. While this minority of super-rich Kenyans are accumulating wealth and income, the fruits of economic growth are failing to trickle down to the poorest.

The rich are capturing the lion's share of the benefits, while millions of people at the bottom are being left behind. If inequality remained at the same level for the following five years, 2.9 million more people could be living in extreme poverty.

### *Let's look at the numbers*

**8.300** The gap between the richest and poorest has reached extreme levels in Kenya. Less than 0.1% of the population (8,300 people) own more wealth than the bottom 99.9% (more than 44 million people). The richest 10% of people in Kenya earned on average 23 times more than the poorest 10%.

The annual wealth report by Knight Frank and CFC Stanbic has revealed that only ten Kenyans control assets worth more than Sh500 Billion

Only 10 People Control Sh500 Billion in Kenya - Knight Frank's Annual Wealth Report

By [MUMBI MUTUKO](#) on August 21, 2018 - 7:35 pm

## Reason No 2

To be ready and not be caught un prepared when a total lock down starts programmed to start in year 2030 when none will buy or sell unless you make your allegiance to the New world Order, the kingdom of the Antichrist

Jesus said in Mathew 24: 9 about crisis

9 Then shall they deliver you up to be afflicted, and shall kill you: and ye shall be hated of all nations for my name's sake.<sup>10</sup> And then shall many be offended, and shall betray one another, and shall hate one another. Anyone who will refuse to prepare now for what is coming in year 2030 you will be offended because of Jesus and you will fall

### When did Jesus promise to come for Rupture?

<sup>29</sup> Immediately after the tribulation of those days shall the sun be darkened, and the moon shall not give her light, and the stars shall fall from heaven, and the powers of the heavens shall be shaken:

<sup>30</sup> And then shall appear the sign of the Son of man in heaven: and then shall all the tribes of the earth mourn, and they shall see the Son of man coming in the clouds of heaven with power and great glory.

<sup>31</sup> And he shall send his angels with a great sound of a trumpet, and they shall gather together his elect from the four winds, from one end of heaven to the other.

From the scripture Jesus promised he will come after the tribulation has ended, so before Jesus comes for the saints, the church will experience a tribulation period, that will last for 3 ½ years. We need to prepare for those 3 ½ years that starts in years 2030, the year when world leaders plan to establish the new world order.

### Bible warning regarding rupture

2 Thessalonians **2: 1** Now we beseech you, brethren, by the coming of our Lord Jesus Christ, and by our gathering together unto him,<sup>2</sup> That ye be not soon shaken in mind, or be troubled, neither by spirit, nor by word, nor by letter as from us, as that the day of Christ is at hand.<sup>3</sup> Let no man deceive you by any means: for that day shall not come, except there come a falling away first, and that man of sin be revealed, the son of perdition;

*When the church and the Holy Spirit shall be removed from earth during rupture, that is when the antichrist shall be revealed to the Jews, they shall know they did a mistake, the antichrist shall sign a 7 years peace pack with Jews, starting years 2030, when the first 3 ½ years ends he shall stop the Jews from their daily sacrifice, he shall defile the temple, this will be the time of rupture, Jesus will enter into our space. Rupture is the event shall reveal to the Jews and world they made a mistake is signing a peace pact with the wrong messiah, the bible says all people on earth will mourn after they discover their mistake*

*We are headed to a crisis as the church, and we must prepare, we must come together to create wealth, and have structures to survive the 3 ½ trouble coming. More information see my books on end time.*

# MAIN OBJECTIVE OF THE COMPANY

To change the market system dominance by cartels

The idea behind Tree Network Limited Co. is to change the current market system from 90/10 to 50/50 so to benefit the poor in wealth creation

## Understanding the current 90/10 Business system

The current market system is 5% of population who make the least of the total population own and control 90% of the entire economy, while 95% who make the rest of the population have been reduced to share the remaining 10% making millions of Kenyan's live below poverty and on less than a dollar a day and from Hand to month, this is the problem we aim to solve, through changing the market system from 90/ 10 to 50 / 50. So there can be equity of wealth distribution in the country

Illustration of the current 90 / 10 business system

90	10
This Has made the 5% who make the least of the population control 90% of wealth Has made them to be: The Investors The Importers The Exporters	This Has made the 95% who make the most of the population share the remaining 10% Has denied them to be: - Investors - Importers - Exporters
-The Manufacturers	- Have Been Reduced as Buyers and consumers making money For the 5%
- Company and industry owners - Transport industry owners - Banking sector owners -Massive land owners -Empowered to access any kind of loans in Banks - Real estate owners - The food industry owners	Have remained an open market for the 5% The 5% manufacture products like, milk, bread, fats imports products, put restaurants , supermarkets, build rental houses just to name a few and the 95% buy and give them the money. The system has made Some to be squatters in their own mother land -limited access loans - dwell in slums - cant access medical care - have no clean water
- The Employers Most are politicians and Government officials and prominent Business man	- work in bad conditions - Live from Hand to Mouth - Some are in crime and prostitution.

## Employment under the 90 / 10 business system

The 90/10 Business system makes the 5% to be the employers creating employment for the 95%, but the 90 /10 system is so structured that even the salaries the 95% earn from the 5% through employment is still trapped back to the 5% through the following;

Public Transport, Food, Consumer goods, Rental Houses and schools fees & supplies  
Examples of salaries of KES 20,000 given to the 95% by the 5%

### Salary Breakdown

				<b>KES</b>
<b>On daily Transport one will use</b>	Kshs 120 par day	26 days	=	<b>3,120</b>
<b>On daily meal one will use</b>	Kshs 150 par day	26 days	=	<b>3,900</b>
<b>On consumer goods (monthly food)</b>	Monthly food	Kshs 7,000	=	<b>7,000</b>
<b>On Rental house (monthly)</b>	Monthly	Kshs 5,000	=	<b>5,000</b>
		<b>Total kshs</b>	=	<b>19,020</b>

## All Salaries circulates back to the 5%

20,000,000 Kenyans each earning a salary of Kshs 20,000 = give back to the 5% each month Kshs 400 billion  
With the 90 /10 Business system we will keep having a few Billionaires while millions will keep living below poverty line and on less than a dollar a day and we will never achieve the MDG'S

The Gap between the rich and the poor will keep widening as currently Kenya is leading with a wider gap between the rich and the poor in Africa

Our Aim: is to shift business from 90 /10 to 50 / 50 from usual to un-usual which vision 2030 supports; And I quote

*Delivering this ambitious process of National Transformation will require: a fundamental shift from Business –as Usual to Un-usual*

With the 50/50 system

50	50
<p>This will make the 5% who make the least of the population who control now 90% of wealth to reduce their control from 90% by 40% and share now 50% of the economy and the market</p> <p>Will reduce the 5% control of the market by 40%</p> <p>Most companies and industries they once owned and controlled will shift to be owned and controlled by the 95%</p>	<p>Will make the 95% who make the most of the population who share the remaining 10% grow by 40% to share and own 50% of the economy and the market</p> <p>Will increase the 95% control of the market by 40%</p> <p>This will make the 95% also:</p> <ul style="list-style-type: none"> <li>To be investors</li> <li>To be Importers</li> <li>To be Exporters</li> <li>- To be Manufacturers</li> </ul>
<p>This will enhance equity of wealth distribution in the country, minimizing the big gap between the rich and the poor</p>	<ul style="list-style-type: none"> <li>- To own Companies and industries</li> <li>- To own transport industry</li> <li>- To also own banking sector</li> <li>- To own massive land</li> <li>- To access loans in Banks</li> <li>- To own agriculture</li> <li>- To own Real estate</li> <li>- To own food industry</li> </ul> <p>Will grow from mass national poverty</p>

## Year 2 year of mass Job creation

We plan to have new supermarkets increasing across all sub counties of Nairobi and major towns of Kenya that will sell 70% of local products, as most current supermarkets sell 90% of imports that has killed local Jobs and exported all sustainable jobs and caused food prizes go up due to post harvest loses. The current farmer lack a direct market for his products, this has forced farmers to sell their farm products on a throw away price to middlemen who often hike food prices. With the new set of supermarket this will be a thing of the past, farmers will access a direct market that will cause the high cost of food to go down.

Having chains of supermarkets, **we shall require food and none food products**, we intent to cut off imports from our market system so we may develop our people and make them grow out of poverty, we shall empower groups of men, women, youths, in towns within each ward level who shall be empowered to produce and supply products like: sleepers, belts, panties, dresses, skirts, soaps, shampoos e.t.c and farmers at ward level shall also be developed into group dynamics to value add products at farm level and supply all manner of products required in the supermarkets from greens, cereals, yogurts, poultry products, beef e.t.c our company shall also buy and revive dead factories in Kenya like the sugar industry among other as we shall have developed a direct market for the product, as we shall build on the slogan of buy and build Kenya. Our supermarkets shall not sell anything imported which we can manufacture locally, Jobs will only be given to our registered members, including those who supply products. So no membership no supply of products in our system, though we shall also work with local selected companies to supply goods

Some kind of Products to be developed and produced locally by our members

## Members benefit

All members will obtain a shopping card, each will be required to shop and attain a certain level of points each month, the system will be IT depended where each month an SMS will be sent on the standard minimum amount one must use in shopping monthly to benefit, if one refuse to use his card will be considered as have left our membership and will not benefit from profits generated. The shoppers shall not be shareholders in the business but will be the company beneficiaries, from the 45% of profits generated from the business. Our company TREE NETWORK LIMITED has decided to share profits, if you say we give 10,000,000 people shares the company will no longer be a private company but will change to a public company with new rules and regulation. Tree Network Limited Company shall share 45% of profits generated from the business with the shopper's members in the business, only 15% of company shares will be given out for those interested in having shares

Each member shop obtain a card for swap
